

# ECO 4BREAKING NEWS TODAY

The UK government has introduced the ECO4 scheme so homeowners, private tenants and landlords can apply for a government grant. Before anybody living in a property that had solid walls were not eligible for the ECO 4 scheme, they missed out on energy savings. ECO 4 intends to continue allowing solid wall insulation funding. The UK Government Eco Scheme also branches out and includes ECO Scotland and ECO Wales Schemes.

ARE YOU ELIGIBLE?

## Heating

### Electric Storage Heaters

Free, replacement electric storage heaters are available via ECO 4 scheme introduced by the UK Government in the Autumn of 2018 and will run until the year 2022 reducing heating costs and their carbon footprint. First-time central heating (FTCH) Heating your home accounts for more than half of your total energy use (around 55%), so your boiler installation shouldn't be a half-hearted decision!

### Air Source Heat Pump

You're probably using electricity to heat your home if you live in an area that doesn't have a gas connection, and this is normally in the form of an electric storage heater.
